**Session Dates for
Spring 2018:**

**Feb. 3, 10, 17, 24
March 3, 10, 17, 24**

Location:

**700 NE Multnomah St,
Conference Room, 3rd floor**

This eight (8) week series is designed to help parents and caregivers learn and implement an innovative, compassionate, and proven approach called Collaborative Problem Solving (CPS). Research demonstrates that children who struggle with behavioral challenges are lacking skills in several key areas such as frustration tolerance, flexibility, and problem solving.

This approach helps parents foster the development of these skills while solving the chronic problems with their child that tend to precipitate challenging behavior.

Learning in a supportive environment side-by-side with other parents provides an optimum setting for parents to begin to shift their understanding and learn a new way of working with their child.

Each session will be facilitated by a **Think Kids Certified Trainer** and will include direct instruction along with the opportunity to apply what is taught to one's unique situation. In order to maximize outcome, parents are encouraged to apply what they are learning during each session at home.

**To register or for more information call
503-729-1380 or email info@whwpdx.com**

FREQUENTLY ASKED QUESTIONS

Who should attend the group?

While ideally both parents would attend, we recognize that in many cases this is not feasible. We encourage additional attendance by alternate caregivers or anyone who may be in a co-parenting role (adult children in the home, foster parents, grandparents etc.) This class is intended for parents/caregivers only, not children. If you are unable to attend the class at the same time please call and ask to be put on the waiting list and notified of the next available class.

Do you offer babysitting?

Child care is not available at this time.

How many parents will be in the group?

Groups are limited to 12 participants.

Do I need to attend every session?

The material that is presented each week builds on the information from previous sessions. As such, while recognizing that situations may arise and that at times a participant may miss a session. We encourage parents/caregivers to attend as consistently as possible. We are unable to refund sessions not attended.

What about travel? Is there parking available?

There is free parking available on Saturdays at the lot across from the building on the NE corner of NE 7th and Multnomah St. Entrance is on the south end of the lot off of 7th. Information on public transportation to our office is available on our website at www.willamettehealthandwellness.com.

What about individual and family therapy?

While many parents receive enough benefit from the group to implement the approach at home, some parents do find that they require some direct additional guidance. Upon completion of group, if indicated, parent will be placed on the waitlist for family-based therapy, placement will be determined by date of initial intake.

What is the cost and can I use insurance?

Eight week class is \$240 for first parent/caregiver. A second parent/caregiver of the same child/nuclear family may register at a discount for an additional \$160. Fee covers eight week class regardless of classes parent(s) are able to attend. Payment required to guarantee space in class and all fees must be paid before first class. No refunds after January 23, 2018. If you or your child is a patient of Willamette Health & Wellness and you would like to find out if your insurance would pay, please contact your insurance company. If you are not a patient at Willamette Health & Wellness and your insurance would pay for this class please inquire about becoming a patient at WHW for this class or for other services.

How do I register for the group?

Please call our offices 503-729-1380. You may also email info@whwpdx.com.
